P.C.I.

**P.C.I. PROFESSIONAL CANNING
INDUSTRIES SDN. BHD.**

OUR COMPANY

P.C.I. was incorporated on 7 April 2005 with a vision of being a world class contract manufacturing company specializing in packaging of soft drink products (carbonated and non-carbonated).

OUR SERVICE

We provide one stop solutions for brand owners who are keen to take active participation in the beverage market, locally and overseas.

Our range of services include close collaboration with our clients in product research and development programs, manufacturing and packaging activities, and distribution alliances.

OUR PRODUCTION FACILITIES

Our facilities are capable of producing both carbonated and non-carbonated drinks in assorted can sizes.

We produce a wide variety of flavors, ranging from the ever popular Cola, Orange and Sarsi to the more adventurous isotonic and energy drink variants.

Producing non carbonated drinks such as Chrysanthemum Tea, Soya Bean and juice based products is also our forte.

OUR QUALITY CONTROL

All products manufactured by our company are subjected to stringent quality control procedures.

Our factory is fully equipped with the latest manufacturing facilities which encompasses international manufacturing standards such as HACCP, GMP and MeSTI. P.C.I. is certified HALAL, endorsed by JAKIM.

PRODUCT RESEARCH & DEVELOPMENT

Our emphasis on R&D activities is reflected in our strong commitment to setting up of an in house R&D unit, managed by our dedicated and well trained staff. Joint collaborations with our clients have yielded positive results and development of new products which are currently distributed in the market.
